To Prove That Labor As a Whole Does Not Approve the Saloon-Ranks of Delegates Thinning On Last Day-Report of the Proceedings.

The Friday morning session of the W. C. T. U. convention found a perceptible thinning in the number of delegates in attendance. Many of the delegates have already gone to their homes, and during the day they continued to leave.

The convention was in charge of Vice President Mrs. Frances Ensign Fuller, the state officers joining in a meeting of the executive board which was held in the Sunday school rooms during the first hours of the

Allies' Advance and Russian Success In East

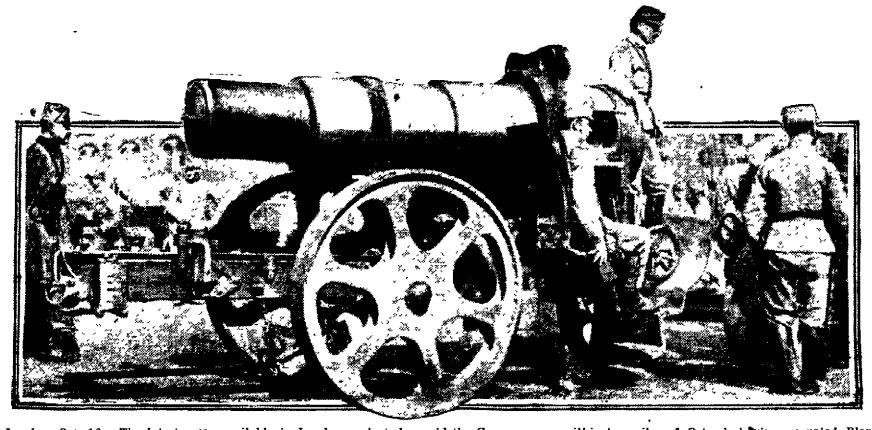

Paris, Oct. 16.-The French war office made an official an-

First Photograph of the Great German 16-Inch Siege Gun.

London, Oct. 16.—The latest news available in London early today said the Germans were within ten miles of Ostend, having occupied Blankenberghe, a small town on the Belgian coast, about ten miles northeast of Ostend. Thus it seemed that the taking of the popular seaside resort by the invaders was a foregone conclusion within 24 hours, if not already effected, and the news delayed, as it was when the forts at Antwerp fell before the terrible fire of the German siege guns. These guns are the mysterious invention of the Krupp factory. This type of gun has battered down the forts of Antwerp, Liege, Namur, and Maubeuge so far. The calibre may be compared to the bodies of soldiers nearby It shoots projectiles as large as a man's body.

TRY THIS IF YOU HAVE DANDRUFF

Or Are Bothered With Falling Hair or Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dandruff you may have.

You will find, too, that all itching and a hundred times better,

If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy encounter against our troops, has has never been known to fail.

RESIGNATION OF CARRANZA NOT YET PRESENTED.

(ASSOCIATED PRESS TELEGRAM) Washington, Oct. 16. - General Carranza's resignation has not been presented to the Mexican convention at Aguas Calientes. Today's reports to the state department reiterated that the question of his retirement would not be taken up until additional delegates from General Za-

pata arrived.

Official despatches today said the temporary organization of the convention had been permanent and All took the oath, swearing to abide by the decision of the convention

Conditions on the west coast of Mexico are rapidly assuming a more peaceful aspect and Rear Admiral Howard, reporting today from the flagship West Virginia at Lapaz, predicted the speedy restoration of peace in Lower California.

The admiral says that Col. Mendez chief of the Yaqui Indians in that quarter has just returned to Lapaz from Mulege and that everything was quiet there, with no necessity for roldiers. He expected to return to Guaymas

MARRIAGE

OF ONE OF GRANVILLE'S POPU-LAR WOMEN TO MINNESOTA PHYSICIAN.

Wedding Was an Elaborate Social Affair Thursday Evening-Other News.

(Special to The Advocate)

Granville. O., Oct. 16.-The mariage of Miss Ada Emily Chrysler, one of Granville's most popular young women, to Dr. Hugh Owen Williams of Balaton, Minn., was solemnized Thursday evening, October 15 at the home of her parents, Mr. and Mrs. W. H. Chrysler on Prospect street in the resence of the family and a few close friends of the bride. The house was beautifully decorated with the eason's flowers, chrysanthemums dahlias, and salvia. The stair casc was entwmed with trailing vines and dablias, the chandelicrs festooned with asparagus fern and candles turnished he soft illumination, so becoming to outhful beauty. The bay window in he front parlor was a bower of green, festooned with delicate vines and anked with palms, where the impressive ceremony was performed by Dr. C. J. Baldwin, former pastor of the Baptist church of which Miss Chrysler was a member from her childhood. Preceding the ceremony, Mr. Karl Meyer of Newark sang "Oh Promise Me," and promptly at eight-thirty, Miss Shirley Slack at the piano struck he opening thords of the wedding march from Lohengrin, and to its familiar strains, the bride's only attendant, her sister, Alieret, slowly descended the stairs singing the gowned in white embroidered net over satin and wore yellow chrysanthemums. The bride accompanied by her father, followed, her delicate llower-like beauty enhanced by the exquisite dress of Duchess lace and white embroidered satin, fashioned in the latest mode, and in the popular round length. She was met by the groom, and led to the altar, where the beautiful service was read.

Following hearty congratulations, the company repaired to the dining room where around a beautiully decorated bridal table, a course dinner was served. Souvenirs of pink reses marked places for the ten young people of the party. An automobile conveyed the young couple to Newark, whence they took train for Lake Crystal, Minn., to visit Dr. Williams' parcuts. The bride looked handsome in her traveling suit of blue with hat of soft blue felt banded with a dark blue ostrich plume.

Miss Chrysler received education at Denison University, graduating in the class of 100. She is unusually gifted, versatile and charming, and for several years was principal of the State High school at Lake Crystal, Minn., where she met Dr. Williams, one of the most promising young physicians and surgeons of the state. They have the good wishes of hosts of friends as they enter on their new life in the new home already prepared for them at Balaton.

INVADERS

(Continued from lage I.) seven. This must be added the virtual destruction of the cruiser Pegasus, by the German warship Zanzilbar. The Hawke a cruiser of 7,350 tons, under command of Captain Hugh Williams was sank yesterday in the North Sea the graveyard of six other ships which were the vic-tims of German torpedocs.

It was only bad aim on the part of the German gunner which saved the Hawke's sister ship, the Theseus and the doubting of yesterday's disaster for the vessel too was attacked but she escaped.

The exact complement board the Hawke has not been announced but in ordinary times the men numbered 550. As she was built several years ago it is probable that her crew was not up to the full complement. According to one report she had only 400 aboard. Whatever the number only 52 men were saved and there was not a single commissioned officer among them

The cruisers Amplion, Pathfiender, Aboukir, Cressy, Hogue, Pegasus and Hawke and the torpedo gunboat Speedy, made up the British formidable list of losses in warships in the first 10 weeks of the war. Against this the British admiralty claims four German cruisers, two torpedo boat destroyers, one torpedo boat, three submarines and eight armed commerce destroyers.

Omitting the armed merchantmen the aggregate warship tonnage loss to England is, of course, much greater than that to Germany.

In both cases the lost ships with the exception of the cruiser Amphion and the submarines, were older craft used for scenting purposes, the ships intended for the sterner work of a fleet action being held in safer waters for the day when Germany se-lects to sally from behind her naval base of Helgoland.

According to reports received here from Berlin, Germany expects Brit-ish dreadnaughts to play a part in ridal chorus. She was beautifully the defence of Ostend. Nothing else able to keep the invaders out of the Belgian seaport but of course events further south will decide the ultimate action with regard to Ostend.

Appetite Follows Good Digestion

Nearly everyone indulges their appetite and the digestive organs are abused, resulting in a congestion of poisonous waste that clogs the bowels and causes much misery and distress.

The most effective remedy to correct this condition is the combination of simple laxative herbs with pepsin known as Dr. Caldwell's Syrup Pepsin. This is a natural, pleasant-tasting remedy gentle yet positive in action, and quickly relieves indigestion, constipation, sick headache, belching. etc. Drug stores sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle, and in thousands of homes it is the indispensable family remedy. Tonight a special temperance rally will be held, which will be addressed by Hon J. A. White, of Columbus, attorney for the Anti-Saloon League. Vir. White is a brilliant speaker, and no doubt will be greeted by a large audience,

An early start was made Friday morning, the convention being called to order at 8:45 o'clock, Rev. W. D. Ward, pastor of the Central Church! of Christ, conducting a quiet hour service. After special music, the reports of officers and committees were made, and Dr. John Day, of Columbus, president of the Ohio C. E. Union, delivered a fine address.

Thursday evening's meeting of the convention consisted of a song service, devotional by Rev. Don Tullis, a special musical program and a splendid address by Dr. Day. The convention has been very successful in every respect, the delegates have been accorded excellent treatment, and the officers in charge have received many compliments for their untiring energies in making the annual convention a grand

One reason why this demand for Nerv-Worth is so great is that it overcomes so many of the ills that desh is heir to. It is good for pains in back, head, chest and sides; for indigestion and bowel troubles; for dizziness, sleeplessness and palpatation of the heart; for weakness and weariness; for sick and nervous headschas for all these arcsides. headaches-for all these specific disorders of the nervous system and a

run-down condition in general. And while doing good in this way Nerv-Worth does good only. There is not a single, habit-forming or other harmful drug in it. Nerv-Worth is a vegetable mixture in which no danger lurks. Visit the Evans store and ask for a free sample dose. You'll like its fresh, invigorating taste.

H. H. SHAUCK REAL ESTATE BULLETIN

Here is the best offer for anyone interested in acre lots that has ever been offered to the public. We have ten of our acre lots left on Sixteenth ten of our acre lots left on Sixteenth street, and if sold this fall can be bought as a whole for a very low price considering their location, and the quality and lay of the land, etc. There are three excellent springs on them, the ground is ideal for gardening purposes. Positively if we hold these till spring, we will sell them for double the money now asked. Listen, if I can find ten parties that will draw for their lot, each paying \$500.00, we will sell them at that price. They are all worth over \$300.00, and some of them worth over \$390,00, and some of them as high as \$600,00. This is absolutely

as high as \$600.00. This is absolutely a chance of a lifetime if you are interested in acre lots.

If I was not honor bound as the agent for these lots to turn them quickly, as the owner wishes to use his money. I would prefer holding them till spring. Let me explain it, this offer holds good for ten days only.

NEWARK TRUST CO. ISSUES MONTHLY

The Newark Trust company's monthly crop report dated October 19 will say in part.

With practically the whole of Europe and a part of Asia torn by wars, it is nothing but a natural result that business in the United States a native of France should be greatly retaided and reduced in volume. Nothing could have none more for the people of this NO HEADACHE OR country just at this time than bountiful crops and this year's crops have surely been bountitue. While the estimates on some of them are preliminary as yet, there will be little, it any, change in the present figures on any of the crops unless it be cotton which, when baled, may be found to run anywhere from fourteen and a quarter to take a remedy like Dr. James Headfifteen million bales.

A wheat crop of 89? million bushels, neuralgia at once. The coin crop of 2.676 million bushels is 229 million bushels more than we had last year and, while not a record-breaking crop, has been exceeded only five times in our history.

We have a crop or 1.137 million bushels of oats which is 15 million bushels more than we harvested a year ago, and only in 1910 and 1917 have we had a larger production.

This year's barley crop of 197 million bushels compares with 178 million bushels a year ago and has never been exceeded except by the 1912 crop which was 224 million bushels.

in producing 43 million bushels of rye, compared with 41 million bushels last year, we set a new high record for the production for this country We will have only about 24 million

bushels of rice compared with 26 million bushels a year ago. The decline in production is due to smaller acreage as this year we grew 34.5 bushels per acre compared with our past average of 33.3. In 1914, 1912 and 1913, we had a larger rice crop but only in 1509 and 1912 did we produce as much

With 17 million bushels of buck-wheat, we have exceeded last year's output by 3 million bushels.

With 382 million bushels of white potatoes compared with 332 a year ago. we have exceeded any previous year's production except that of 1909 and

This year's tobacco crop will be about 954 million pounds, which is a tremendous increase over the estimates of a month ago. This would give us exactly the same yield we had last year and would mean a production of \$21 pounds to the acre.

The tame hay cut for the year amounts to 69 million tons, which is 5 million tons more than we had last year. This crop was equaled in 1910 and has only been exceeded in 1908 when we had 71 million tons and in 1912 when we had nearly 73 million

It is believed that we will harvest over 225 million bushels of apples this year while last year we had only 145 million bushels, making this year's crop 80 million bushels larger In 1913, we raised 5,661 thousand

short tons of sugar beets, which up to that time was the largest crop over grown in this country. This year we have grown about \200 thousand short

World Series Echoes.

Johnny Evers turned down an ofer from the Federal league for a series of games between the Braves and the Indianapolis pennant winners. It is said that Evers was offered \$17,-000 if he would agree to the arrangement.

Mayor Curley of Boston, entertained the Braves with a banquet last night. Following the feed and the distribution of the checks for the big series, the victors departed for their various homes.

Boston's players have all thus far refused offers of vaudeville agents for engagement on the stage. This speaks well for the personality of the players.

U. S. NAVAL EXPERTS INTERESTED IN THE DISASTER TO HAWKE

ASSOCIATED PRESS TELEGRAM! Washington, Oct. 16 .- The sinking of the British cruiser Hawke by a German submarine attracted particular attention in naval circles several other British warships in the same manner. In no perceptible degree, however, have these disasters ideal naval weapon of offense and defense. It is admitted though that battleship is still the ideal naval weapon of offense and defense. is admitted though that under conditions such as obtain in the late fall and winter season in the North Sea, they are capable of working great harm to the blockading fleet.

The thick fogs that are to be expected at this season in northern waters; the numerous coastal islands with their deep channels affording easy refuge and hiding places for the submarines, and the protection which the submarine bases enjoy, through the extensive mine field planted by the Germans, are declared by the experts here to make the conditions ideal for the employment of submarines. It was suggested that the British probably would find some compensation in the dense North Sea fog utilizing them to mask their 'cutting out' operations against the German mine field.

Scientific Uses of the Radish. An alcoholic solution of the skin of a red radish serves as an excellent indicator or test for acids and bases. In the presence of acids the colorless solution turns pink, while with basesalkaline solutions-it turns yellow. It is well known that many plant extracts, such as litmus, and animal products, like cochincal, possess this property of developing marked colors with acids and insex, but no other indicator is so simply made.
